

ViP[®]722k DVR

High-Definition Satellite Receiver/Digital Video Recorder

ViP722k DVR is an advanced MPEG-4, dual-tuner, high-definition satellite receiver and integrated digital video recorder (DVR) providing the ability to view independent programming on two televisions.

Features:

- MPEG-4/MPEG-2 technology
- Digital Video Recorder
- Recording capacity¹
 - SD up to 350 hours
 - HD up to 55 hours
- Two HD/SD satellite tuners²
- Two independent TVs supported
 - TV1: HDTV or SDTV
 - TV2: SDTV
- HDMI digital audio/video output
- Independent HD/SD aspect ratios for TV1 PIP
- Two USB 2.0 ports
- Ethernet port
- DishHOME Interactive TV
- HD VOD-capable
- Name-based recording
- Recorded events management
- Parental locks
- On-screen Caller ID with history³
- Up to 9-day Picture-In-Guide with optional widescreen Electronic Program Guide (EPG)
- Software upgradeable via satellite
- DishCOMM™ compatible
- DISH Pro Plus compatible
- Software-controlled Agile Modulator attenuation
- (2) two-way learning remote controls
 - Two-way IR for TV1
 - UHF Pro with two-way IR support for TV2.
- Optional MT2 Over-the-Air Module

- One universal infrared (IR) 2-way learning remote control. Controls "TV1" (main TV location). Note: TV1 can be programmed to use a UHF Pro remote control.
- One universal UHF Pro remote control with two-way IR support; controls "TV2" (second TV location). It controls the satellite receiver through walls and other obstructions (UHF Pro operating range of up to 200 feet unobstructed).
- Universal 4-component remote control common features:
 - Can be programmed to operate (via IR) up to three additional components such as TVs, VCRs, and DVD players.
 - AUX mode can be programmed to operate a second DISH Network satellite receiver via IR control.
 - DVR buttons: 30-sec. skip forward, 10-sec. skip back, stop, play, up to 1 hour pause each for TV1 and TV2, forward and reverse (4x, 15x, 60x, 300x), slow motion and frame-by-frame (forward and back), record.
 - Picture-In-Picture (PIP) functions display, move, or swap the PIP image in Single Mode.
 - Dedicated TV POWER button.
 - INPUT button in Recover mode toggles through TV and DVD/ VCR inputs to help user return to satellite programming when they accidentally change channels on their TV or VCR.
 - Four colored interactive buttons (for future use).
- Two-way learning remote features include:
 - Two-way IR communication with receiver.
 - Remote-to-remote device code learning.
 - Receiver stores remote control settings, including remote control address and device codes.
 - Remote control stores receiver settings, including timers and locks.

MT2 OTA Module Features:

- View two OTA channels.
- In Dual Mode, view one live OTA channel at the TV1 location, and one live OTA channel at the TV2 location.
- Channel 3-4 modulated output for TV1.

Enhanced User Interface Features:

- System Wizard
- Replacement Receiver Wizard
- Replacement Remote Wizard

.....

1 Recording capacity depends on the type of programming being recorded.

2 Additional authorization may be required before high-definition programming and/or over-the-air digital broadcasts can be viewed; additional fees may apply.

3 Requires Caller ID subscription with local phone company. Phone line must be connected to receiver.
